Stronger Together

January 2019
(date and time TBD)

Youth Trauma Program at
The Fernandes Center for Children & Families
222 Milliken Boulevard, Fall River, MA

This free six week group provides support
and education for youth ages 11-14
who have been impacted by parental
or caregiver substance disorder.

Substance abuse effects people of all ages. Research* finds that 1 in 8 children are living in a home with at least one parent who has a substance use disorder. Kids impacted by parental substance use face higher rates of emotional or behavioral difficulties and are at higher risk of engaging in substance use.

For more information, please contact Stephanie Sayles, MSW, LICSW
