

# Emotional Wellbeing After Baby

Created by Karen Kleiman and Molly McInyre for The Postpartum Stress Center  
postpartumstress.com

**Creating hope and connections for moms and dads struggling with the adjustment to parenthood, anxiety, or depression in the postpartum year. Open to residents of any town**

- ◆ Free, ongoing, nonjudgmental support group
- ◆ You do not need to be diagnosed with PPD to attend
- ◆ Facilitated by Heather O'Brien, LICSW, Certificate in Infant-Parent Mental Health
- ◆ RSVP's requested before attending for the first time by emailing Heather, [hobrien@jri.org](mailto:hobrien@jri.org)
- ◆ Babies 0-12 months welcome

**During COVID-19 restrictions this group is not meeting in person.**

**Please join us by registering for the zoom link**

Women of every culture, age, income level and race can develop perinatal mood and anxiety disorders. 16% of new mothers experience treatable depression or anxiety disorders within the first year after baby's birth. 10% of dads may also become depressed in the postpartum year. If one partner is experiencing postpartum emotional or mental health difficulties, it's more likely that the other is too.

*This group supports all new parents who identify as mothers or fathers. Whether you are breastfeeding, bottle feeding, parenting solo, partnered or married, an adoptive or biological parent, have one baby or more, you are welcome here. Sharing our range of experiences shows us how many ways there are to be a family. First Connections is a Mass. Dept. of Early Education & Care grant program. Additional funding for this group was received from Acton-Boxborough United Way, Concord-Carlisle Community Chest, Sage Therapeutics and The Nordblum Foundation.*
