

WHO WE ARE

Justice Resource Institute (JRI) is a private, nonprofit human services agency. We are dedicated to addressing the most confounding challenges of both the human services and educational systems and the persons and families these systems were created to serve.

JRI pursues the social justice inherent in opening doors to opportunity and independence. Although our range of services is as varied as those we serve, our approach is uniformly characterized by compassionate support, innovation, and community leadership. We work in partnership with individuals, families, communities and government to address their shared challenges in a comprehensive, coordinated, systematic, and effective manner.

JRI seeks new knowledge and improved evidence-based practice, in research and in the field, in order to inform our continuous search for excellence in service.

What people are saying about
their experiences at
Justice Resource Institute...

“JRI gives people help and support far beyond what any government organization can. The skills, dedication, care, and hard work of the staff and management make this miracle possible. Volunteering to this Agency gives back a little bit of what the Agency gives the community and extends JRI’s helping hand just a little bit further.”

- Don Foster, *Volunteer Board Member*

“The kids—they come, and then they go... all the times spent with them laughing, playing or joking have a special part in my heart.”

- Volunteer, *FOCUS/Family Resource Center*
